

CURRICULUM VITAE: Anand Gopinath

Anand Gopinath graduated with the Ph.D. and D.Eng. (higher doctorate) degrees from the University of Sheffield, Sheffield, England. He was Lecturer, Senior Lecturer and Reader in Electronics in the University College of North Wales, and also held the Chair of Electronics in Chelsea College, now merged with King's College (1981-82), University of London, London. He was Research Staff Member at MIT Lincoln Laboratory 1978-1986, and then joined the University of Minnesota as Professor of Electrical Engineering. He was Director of the Microelectronics Laboratory (now Nano Fabrication Laboratory), University of Minnesota, 1989-1994. He has worked in the fields of electromagnetics including analog RF circuits, scattering, antennas and MRI RF coils. He has also contributed to Integrated Optics and Optoelectronics, metamaterials and photonic band gap structures.

Professional Societies and Affiliations

Fellow, Institute of Electrical and Electronic Engineers, New York.

Fellow, Optical Society of America

Fellow, Institution of Electrical Technology, (previously IEE) London, England.

Member, ISMRM

Member, American Physical Society
